## DETAILED ACTION

### *Reissue Applications*

1. The reissue oath/declaration filed with this application is defective because the error which is relied upon to support the reissue application is not an error upon which a reissue can be based. See 37 CFR 1.175(a)(1) and MPEP § 1414.
2. The original reissue declaration nor the supplemental declaration filed 6/30/03 and the original declaration filed 3/25/02 are not acceptable because they do not identify a single word, phrase or expression in the specification or the original claim, and how it renders the original patent wholly or partially inoperative. Simply addressing the error by saying that the claims are "too narrow" or saying "broadening claims needed to include those having more emphasis on the special round" is insufficient. A complete new reissue declaration is required. The complete new reissue declaration must identify a specific word or phrase that makes the claims too narrow, and must identify what feature is being subtracted from the claims in order to broaden the claims. The new reissue declaration must also include the statement that "all errors being corrected, arose without deceptive intent".
